RUSH — TIME DATED **ADDRESS CORRECTION REQUESTED**

TODAY & TOMORROW

JUNE 5-18, 1982

(Newsbriefs continued)

The Third Annual Symposium and Workshop in Cardiac Pacing will be held Thursday and Friday, June 10 and 11 at the San Franciscan Hotel, 1231 Market St. Faculty host will be Nora F. Goldschlager, MD, director of the SFGH Coronary Care Unit and Electrocardiography Laboratory and associate clinical professor of Medicine.

Designed for physicians, nurses and other health professionals, the program provides an update on caring for patients with pacemakers. Applications for pacing systems currently on the market will be reviewed and case studies, available in advance of the course, will be discussed.

The program is sponsored by the Department of Medicine, Division of Cardiology and the SFGH Department of Cardiology. Registration is $100 for physicians, $25 for house staff and other health professionals. For further information contact Sara Borel, Extended Programs in Medical Education, at x4251.

The Arthritis Foundation offers a limited number of research fellowships for physicians and scientists pursuing investigative or clinical teaching careers in the areas of science related to arthritis. These awards are designed for advanced training in research, not as grants-in-aid for specific projects.

In addition, there also are research fellowships and grants available to graduate, non-physician health professionals. These awards are for research training and development of investigative skills. Research proposals on arthritis management and/or comprehensive patient care are appropriate for these programs.

Application deadline for fellowships for physicians is September 1; fellowships for non-physician health professionals, November 1. For applications write to: Research Department, Arthritis Foundation, 3400 Peachtree Road, N.E., Atlanta, GA, 30326.

Life-threatening rotor explosions may occur under certain conditions involving the use of Beckman equipment model L2-65B, L2-75B, and L4 Ultracentrifuges, as well as Beckman Type 35 and 42.1 rotors below serial number 1299.

Beckman has stated that the chance of such an explosion is remote, however, they have suggested that immediate action be taken to eliminate any danger.

All campus lab employees who use this Beckman equipment are asked to contact Ro Wang at x5043 for a copy of the Beckman instructions. If the instructions are not clear, you may contact Beckman representatives Frank Richards or Gertrude Burguieres at 859-1497.

The School of Nursing has received an award to support one minority high school student under the NIH Minority High School Student Research Apprenticeship program in conjunction with the school's Biomedical Research Support Grant program.

This represents the first such award to UCSF in a field other than biomedicine. The student will be working in the Office of Research under the direction of Susan Gortner, PhD, project director, and William L. Holzemer, PhD. Both will assist the student in an introduction to nursing and health related research as well as scientific computing.

Scientists who feel they lack the skill and confidence to report their work in clear, well-organized and readable form are invited to attend the workshop "Effective Scientific Writing: The Journal Article."

Each participant will actually write or revise an article based on his/her own work. Writing skills will be taught mainly through brief presentations, group critiques of participants' writing, and individual conferences.

The course is taught by editor and teacher Adela Karliner, and costs $250. The class will meet Wednesdays from 4 to 6 p.m. for seven weeks, June 16 to July 28 in N 527.

For program information call x4251; registration information, x2894 or x2483.

The UCSF Library has received a $13,000 grant from the Commemorative Association for the Japan World Exposition to purchase books for its Oriental Medicine Collection.

The Library's unique collection, which was started 19 years ago, contains publications related to development of medicine and medical practices in Japan, China and other Asian countries and currently holds over 10,000 volumes of books and journals in the original Asian and western languages. The collection attracts attention from scholars and researchers in the U.S., Japan, China and Europe.

The U.S. Public Health Service (USPHS) invites applications for a proposed extension of a training program in medical epidemiology. Up to 12 individuals per year, who already have an MD, a doctorate in an allied health profession, or a PhD in a biomedical or behavioral science (biochemistry, psychology, etc.), or equivalent, may be accepted as service fellows for up to a three-year period.

For further information including application forms, send a postcard only with printed name and home mailing address to: Robert S. Gordon, Jr., MD, MHS, Chair, Steering Committee, NIH, Building I, Rm. 238, Bethesda, Maryland 20205. Applications received by September 10, 1982, may be considered for service to begin between July 1 and September 1, 1983.

DEADLINE

Deadline for the next issue of *Today & Tomorrow*, which will cover the period June 19-July 2, will be Tuesday, June 8, 11 a.m. Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x1541 or x2557.

UCSF will hold two public meetings to discuss the proposed Long Range Development Plan Restudy (LRDP) on Thursday, June 17 in Toland Hall at noon and at 7 p.m.

The purpose of the meetings is to provide a summary of the major aspects of the proposed restudy for interested individuals' review and comment. The basic concepts of the 1976 plan are fundamental to the 1982 plan and include:

1) the return of the University-owned houses on the west side of Third Avenue between Parnassus and Irving to private residential ownership,

2) an agreement not to acquire additional residential property within the campus neighborhood,

3) the acceptance of limits on growth,

4) the declaration of Mount Sutro as a 58-acre open space reserve.

These and other campus commitments to the community are reaffirmed in the restudy.

The 1976 plan called for the following unfinished but approved construction:

1) a third, 15-story Health Sciences South Tower (HSS) to accommodate space for additional research and expansion of the undersized library,

2) demolition of the UC Hospital and the construction of a small administration building on that site,

3) an addition to LPPI to replace several small structures on that site and to house some clinical research activities located in University-owned houses.

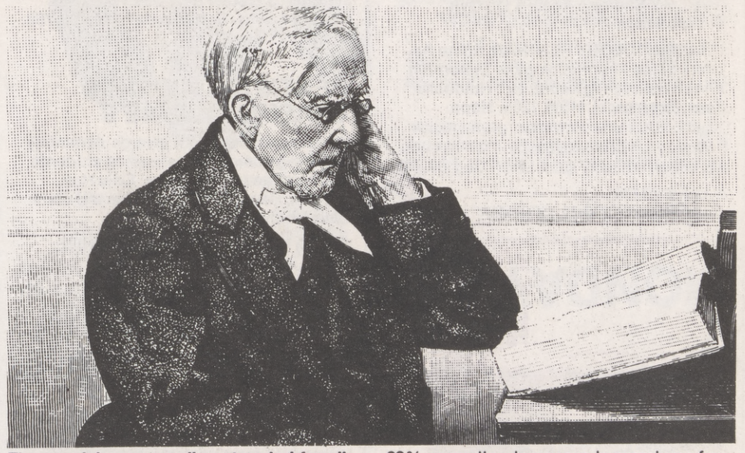
The purpose of the proposed LRDP Restudy is to review the planning assumptions of 1976 in the light of the realities of the 80's. As a result of that review, a number of revised recommendations have been proposed:

1) elimination of the approved 15-story HSS Tower,

2) in its place, the construction of a new, adequately sized library to the west of Millberry Union; this site also to be used for the development of academic support space,

3) also in place of HSS, the eventual construction of two or three small, low-rise modular research buildings within the inner campus behind UC Hospital; projects to be constructed as funding

(continued inside)



The special open enrollment period for all UC employee health insurance plans will continue through Friday, June 25 with changes effective August 1, 1982. There will not be a November open enrollment for health plans this year.

Most of the health plans offered to UC employees wil have significant premium increases on August 1, including a Prudential rate increase of 42%, Blue Cross 29%, as well as increases in premiums for Health Maintenance Organizations (HMOs). There will be no increase in the employer health plan contribution before October 1, if then.

Remaining informational meetings on health changes are: Tuesday, June 8, S 664, noon to 1 p.m. and Monday, June 14, S 664, noon to 1 p.m. For further information contact Mary Kahn or Judy Kell at x1843 or x1400.

Because of concerns over the revised University-wide health insurance plans, Chancellor Sooy has issued the following letter to the campus community:

"The Chancellor's Office is very concerned about the impact on UCSF staff and faculty of the recent increase in cost and reduction in benefits of the University-wide group health insurance plans. I am particularly disappointed that there was no catastrophic insurance type of alternative offered, whose costs would be within The Regents' contribution.

"I have asked Dean Krevans, Dean Greene, and Director Kerr to undertake immediately an intensive study into the feasibility of our initiating a medical plan using UCSF facilities for University staff and faculty. The studies will include costs and feasibility for medical care, dental care and hospitalization.

"In the meantime I have asked Vice Chancellor Evanoff to bring onto campus for a period of time an expert on health insurance programs. Any member of the staff or faculty who wishes will be able to make an appointment for a personal consultation on possible alternative health insurance programs which might better meet the needs of your own family, even though these programs might not be eligible for The Regents' contribution.

"We will investigate every way possible to insure the availability of more cost-competitive insurance options for UCSF employees. Any comments on these options or suggestions will be most welcome through Vice Chancellor Evanoff or directly to my office."

Vol. 8 No. 12, June 5-18, 1982

UCSF
University of California, San Francisco . . . A Health Sciences Campus

ORAL SURGERY CONFERENCE. C 701. 8 a.m.

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm. 6th fl. A. 8 a.m.

PULMONARY GRAND ROUNDS: *When is INH Prophylaxis Worthwhile?* Diane Coleman, Pulmonary. HSE 336. 8:10 a.m.

OBSTETRICS/GYNECOLOGY & REPRODUCTIVE SCIENCES GRAND ROUNDS: *For topic & speaker call 821-8358.* S 1364. 9 a.m.

OPEN ENROLLMENT MEETINGS. Open enrollment ends June 25. Health plans are scheduled to change August 1. Learn if it is time to change your plan. S 664. Noon-1 p.m.

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE. Julian T. Parer, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

PHARMACOLOGY SEMINAR: *Some Aspects of the Pharmacology of Dynorphin on the Guinea Pig Ileum.* J.P. Huidobro-Toro, Pharmacol. HSW 1250. Noon.

INTERNATIONAL FOLK DANCING. Led by Dean Linscott. No partner needed. Everyone welcome. MU Gym. Noon-1:30 p.m. Special instructions for beginners 12:10-12:30 p.m. *

JOINT UCSF/UC-BERKELEY BIOENGINEERING SEMINAR: *The Status of Research on the Bio-effects of Nonionizing Radiation.* H.P. Schwan, Biomed. Engin., U. Penn. 240 Bechtel Engin. Cntr., UC-Berkeley. 4 p.m. For further information contact Kate Seifert or Kathy Schermerhorn on ATSS 8-582-8790.

BROWN BAG TOURS LECTURE SERIES: *What Makes People Laugh?* Arthur Asa Berger, Broadcast Communication Arts, S.F. State. For further information call x4394. HSW 303. Noon. Free. *

PATHOLOGY 296 SEMINARS: *Pathology of ECM III: Pulmonary Fibrosis.* Jerry Last, UCD. HSW 508. Noon-1 p.m.

SPECIAL PHYSIOLOGY SEMINAR: *Deglutition & Alteration in Function of the Upper Respiratory Tract.* Arthur J. Miller, Physiol. & Craniofacial Anomalies. S 758. 3 p.m.

SPECIAL NEUROBIOLOGY SEMINAR: *Early Events in Nerve Muscle Synapse Formation.* Gerald Fischbach, Neurosci., Washington U., St. Louis. HSW 303. 4 p.m.

ENDOCRINOLOGY SEMINAR: *Insulin Resistance & Insulin Responsiveness in Cultured Cells.* Carl Grunfeld, Med. S 758. 4 p.m.

DENTISTRY AWARDS CEREMONY JUNE 9

A pre-commencement awards ceremony honoring some 50 outstanding students and four faculty members. Cole Hall. 4-5 p.m. Reception to follow in MU combined lounges.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

PATHOLOGY GRAND ROUNDS: *Basic Dermatopathology V : Melanoma.* Richard Sagebiel, Path. & Derm. HSW 508. 5 p.m.

FACIAL PLASTIC SURGERY CONFERENCE. A 723. 5 p.m.

10 THURSDAY

PEDIATRIC GRAND ROUNDS: *Topics & speakers to be announced.* S 664. 8:30 a.m.

FRANCIS I. PROCTOR FOUNDATION REPORT: *Herpetic Disease of the Cornea & Uvea.* G. Richard O'Connor, PF, and staff. S 214. 9 a.m. Preceded by Kodachrome Presentations at 8:30 a.m.

PEDIATRIC TUMOR BOARD. M 372. 11 a.m.-12:15 p.m.

NEUROLOGY GRAND ROUNDS: *Diabetic Polyneuropathy.* David Fink, Neurol. S 664. 11 a.m.-12:05 p.m.

UCSF/MOUNT ZION GERIATRIC CONFERENCES: *Geriatric Medicine in Britain: What Can We Learn?* Rebecca B. Dunn & Jere Kelly, Geriatric Med. Herbst Hall, Mount Zion. Noon.

NEURO-ONCOLOGY CONFERENCE. L 34. 12:30-2 p.m.

COMBINED HEMATOLOGY-ONCOLOGY ROUNDS. Bldg. 203, Rm. 1A62, VAMC. 3:30-4:30 p.m.

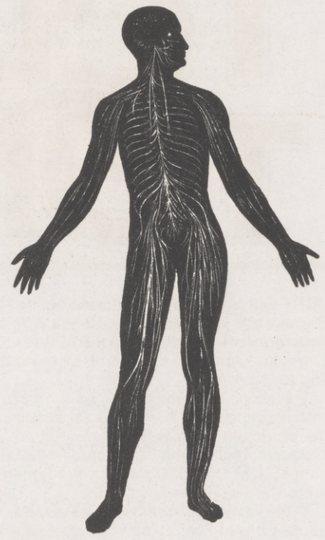
ORTHOPAEDIC SURGERY CLINICAL ROUNDS. A 630. 4 p.m.

NEURORADIOLOGY ROUNDS. HSW 303. 4-5 p.m.

PULMONARY PHYSIOLOGY SEMINAR. Presented by SFGH pulmonary staff. S 758. 8:10-9:30 a.m.

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

CONSULTATIVE TUMOR BOARD. M 372. 10:45 a.m.



CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

PULMONARY 296 SEMINARS: *Pathology of the ECM IV: The Desmoplastic Reaction to Malignancy.* Richard Kao, Path. & Dent. HSW 508. Noon-1 p.m.

PSYCHIATRY GRADUATION JUNE 11

(See newsbriefs for details). Cole Hall. 3:30 p.m.

12 SATURDAY

PLASTIC SURGERY CONFERENCE: VAMC, Rm. A 125. 7:30 a.m.

UROLOGY GRAND ROUNDS: *Topic & speaker to be announced.* Moderated by Eugene Cattolica, Urol. HSW 300. 9:45-11 a.m. Preceded by Deaths & Complications Reports & Selected Cases, 8-8:45 a.m.; *Application of Neurostimulation in Urology.* Richard Schmidt, Urol. 8:45-9:15 a.m.; Clinical Presentations: *The Role of Orchiopexy in the Unilateral Cryptorchid Testis.* Paul Alpert, Urol. 9:15-9:45 a.m.

CHILDREN'S PROGRAMS REGISTRATION JUNE 14 & 15

Register for childrens' summer classes including swimming, water safety, dance, and guitar. Parent-participation classes also available. Register at Central Desk. MU members & UCSF students, June 14; general, June 15. 8 a.m.-2 p.m. and 4-7 p.m. For further information call x1800.

15 TUESDAY

ORAL SURGERY CONFERENCE. C 701. 8 a.m.

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm. 6th fl. A. 8 a.m.

PULMONARY GRAND ROUNDS: *PEEP: How to Use it Rationally.* Peter Dodek, Pulmonary. HSE 336. 8:10 a.m.

OBSTETRICS/GYNECOLOGY & REPRODUCTIVE SCIENCES GRAND ROUNDS: *Endocrine Manifestations Post Sterilization.* Carl J. Levinson, Ob/Gyn. S 1364. 9 a.m.

ENDOCRINOLOGY SEMINAR: *Effects of Bromocryptine on the Anterior Pituitary Gland.* Michael O. Thorner, Med., U Virginia, Charlottesville. S 758. 10 a.m.

LABORATORY OF RADIOBIOLOGY SEMINAR: *Hormonal Regulation of Rabbit Uteroglobin Gene Expression.* David Bullock, Cell Biol., Baylor College of Med., Houston. LR 213. Noon.

INTERNATIONAL FOLK DANCING. Led by Dean Linscott. No partner needed. Everyone welcome. MU Gym. Noon-1:30 p.m. Special instructions for beginners 12:10-12:30 p.m.*

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE. Julian T. Parer, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *Total Synthesis of Yeast Alanyl tRNA.* T.P. Wang, Shanghai Biochem. Inst. HSW 302. 4 p.m.

PANEL DISCUSSION: *Biomedical Career Options Outside the University.* Sponsored by Association for Women in Science. Faculty Club, MU. 8 p.m. Free.*

OCCUPATIONAL MEDICINE GRAND ROUNDS: *Information Sources in Occupational Medicine.* M. Jack Fruman, consultant. A 455. 9-10 a.m. Preceded by Clinical Rounds Presentation at 8 a.m.

PEDIATRIC GRAND ROUNDS: *Long Term Effects of Prolonged Separation.* Irving Philips, Child & Adolescent Psychr. *Long Term Outcome of Very Low Birth Weight Infants.* William Tooley, Ped. & CVRI. S 664. 8:30 a.m.

PEDIATRIC TUMOR BOARD. M 372. 11 a.m.-12:15 p.m.

NEUROLOGY GRAND ROUNDS. S 664. 11 a.m.-12:05 p.m.

17 THURSDAY

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

FACIAL PLASTIC SURGERY CONFERENCE. A 723. 5 p.m.

LIVER CENTER SEMINAR: *Topic to be announced.* Almira Correia, Pharmacol. HSW 301. 5 p.m.

PATHOLOGY GRAND ROUNDS: *Liver Pathology: Review of Cases from London.* Linda Ferrell, Path. HSW 508. 5 p.m.

BAY AREA HISTORY OF MEDICINE CLUB LECTURE: *The History of Cardiology in the Mid- & Late 20th Century: Personal Reminiscences.* John J. Sampson, Med. Herbst Hall, Mount Zion Hosp. 8 p.m. Free.*

Introduction to Editing: Part II — The Professional Journal. June 9, 11, 16, & 18.
Performance Evaluation. June 10.
Designing Your Own Training Program. June 15 & 17.
To register call x4032.

TODAY & TOMORROW

JUNE 5-18, 1982

5 SATURDAY

PLASTIC SURGERY CONFERENCE: *Experience with the Treatment of Head & Neck Tumors.* Robert F. Ryan, Tulane U. VAMC, Rm. A 125. 7:30 a.m.

NURSING COMMENCEMENT JUNE 5

Some 200 students to graduate. Chancellor Sooy to deliver commencement address; Winifred Incerti, '37, honorary marshall. Marin Civic Center Aud. 10 a.m.

7 MONDAY

OTOLARYNGOLOGY CLINICAL ROUNDS. A 723. 8-10 a.m.

NEUROHUMORAL CONTROL OF LUNGS & AIRWAYS CONFERENCE: *Localization of Pulmonary Adrenoceptors.* Peter Barnes. C 130. 8:10 a.m.

PATHOLOGY 296 SEMINARS: *Pathology of the ECM II: Diabetes.* Yeong-Hau Lien, Exper. Path. HSW 508. Noon-1 p.m.

LABORATORY MEDICINE CLINICAL MICROBIOLOGY COURSE: *Staphylococci.* Geo. F. Brooks, Lab. Med. S 214. 2-3:45 p.m.

CVRI LECTURE: *Regulation of Transmembrane Calcium Fluxes in Cultured Myocardial Cells.* William H. Barry, Med., Harvard. S 1364. 4-5:30 p.m.

8 TUESDAY

ORAL SURGERY CONFERENCE. C 701. 8 a.m.

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm. 6th fl. A. 8 a.m.

9 WEDNESDAY

DERMATOLOGY GRAND ROUNDS: *Acne: 1982.* John Reeves, Derm., SFGH. HSW 301. 8 a.m.

MEDICINE GRAND ROUNDS: *The Heart in Diabetes.* Dean J. Kereiakes, Med. *Non-Invasive Detection of Heart Disease in Diabetics — The UCSF Study.* Elias H. Botvinick, Med. & Radiol.; Nelson B. Schiller, Med. Cole Hall. 10:30 a.m.-noon.

PSYCHIATRY GRAND ROUNDS: *Follow-up Study of Parental Bereavement.* Mardi Horowitz, Nancy Kaltreider, Janice Krupnick, all Center for Study of Neuroses, LPPI. HSW 301. 11 a.m.-12:30 p.m.

ENVIRONMENTALLY INDUCED DISEASE LECTURES: *Treatment & Prevention: Personal Methods of Reducing Pollutant Exposure.* Alyce B. Tarcher, Med. S 214. 11 a.m.-noon.

ANATOMY SEMINAR: *Uptake & Transport of HRP by Cochlear Spinal Ganglion Neurons.* Patricia Leake-Jones, Oto. HSE 1309. Noon.

BROWN BAG TOURS LECTURE SERIES: *What Makes People Laugh?* Arthur Asa Berger, Broadcast Communication Arts.

BENNETT LECTURE JUNE 10

THIRD ANNUAL LESLIE L. BENNETT LECTURE: *Regulation of Expression in Opioid Peptide Genes in Mice, Rats and Humans.* Edward Herbert, Chem., U Oregon. Cole Hall. 4 p.m. Free.*

PRIMARY CARE ROUNDS: *TB Skin Testing & INH Prophylaxis.* Diana Coleman, Pulmonary. A 455. 4:30 p.m.

UROLOGY JOURNAL CLUB. Richard Schmidt, Urol.; Jack W. McAninch, Urol., SFGH. M 460. 4:30-6 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5:15-6:30 p.m.

11 FRIDAY

PULMONARY PHYSIOLOGY SEMINAR. Presented by SFGH pulmonary staff. S 758. 8:10-9:30 a.m.

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

CONSULTATIVE TUMOR BOARD. M 372.

DENTISTRY COMMENCEMENT JUNE 13

(See newsbriefs for details). Moscone Center. 11 a.m.

14 MONDAY

OTOLARYNGOLOGY CLINICAL ROUNDS. A 723. 8-10 a.m.

NEUROHUMORAL CONTROL OF LUNGS & AIRWAYS CONFERENCE: *Mechanism of Fluid Production by Trachael Submucosal Glands.* Raul Corrales, Physiol., CVRI. C 130. 8:10 a.m.

HOSPITALS/CLINICS NEW EMPLOYEE ORIENTATION: *Introduction to Hospitals & Clinics.* C 209. 9 a.m.-noon. *UCSF Policy, Procedures & Benefits.* Toland Hall. 1-4 p.m. Registration is required. All new employees attend the afternoon session; Hospitals/Clinics employees attend both sessions. Veteran employees are urged to attend. For further information call x3022.

OPEN ENROLLMENT MEETINGS. Open enrollment ends June 25, Health plans are scheduled to change August 1. Learn if it is time to change your plan. S 664. Noon-1 p.m.

LABORATORY MEDICINE CLINICAL MICROBIOLOGY COURSE: *Streptococci.* W. Keith Hadley, Lab. Med. S 214. 2-3:45 p.m.

PHARMACEUTICAL CHEMISTRY SEMINAR: *Metabolism Studies of Anti-Cancer Drugs by HPLC & FDMS.* Michael Przybylski, Inst. Organic Chem., Mainz, W. Germany. HSW 300. 3 p.m.

CVRI LECTURE: *The Pathogenesis of Air Embolism Lung Injury.* Norman C. Staub, Physiol. S 1364. 4-5:30 p.m.

UROLOGY RADIOLOGY CONFERENCE. Emil A. Tanagho & Donald Smith, both Urol. 14th fl. Moffitt Solarium. 4:30-6 p.m.

16 WEDNESDAY

DERMATOLOGY GRAND ROUNDS: *IGE & Skin Reactions.* George Halpern. HSW 301. 8 a.m.

MEDICINE GRAND ROUNDS. *Neurosyphilis.* Faith P. Fitzgerald, Med., UCD. *The Woman's Curse: A General Internist's Approach to Common Menstrual Complaints.* Carol Jessop, Med. Cole Hall. 10:30 a.m.-noon.

PSYCHIATRY GRAND ROUNDS: *Intimacy & Achievement in the Rural Midwest.* Chris Kiefer, Human Development & Aging. HSW 301. 11 a.m.-12:30 p.m.

CHAUNCEY LEAKE DAY JUNE 16

Planting flowers and trees at various sites on campus. Begins at 11:30 a.m. Contact Sally Soper at x2401 for further information.

Saunders Courtyard Festivities including songs by the UCSF Marching Band, planting of the Leake Memorial Rhododendrons and free lemonade. Noon-12:30 p.m.

Open House at the newly dedicated Leake Office, 1344 - 3rd Avenue. 2-4 p.m.

ANATOMY SEMINAR: *Anionic Sites in Basement Membranes.* Hristides Charonis, Anat. HSE 1309. Noon.

BROWN BAG TOURS LECTURE SERIES: *Sugar Blues.* Norman Kretchmer, Ped. & Ob/Gyn, UCSF; Nutritional Sci., UC-Berkeley. For further information call x4394. HSW 303. Noon. Free.*

UROPHYSIOLOGY: *Stress Urinary Incontinence.* Richard Schmidt, Urol. M 460. 4:30-6 p.m.

CHILD NEUROLOGY CONFERENCE. M 666. 4:30 p.m.

DEVELOPMENT PLAN MEETINGS JUNE 17

Two public meetings to discuss the proposed Long Range Development Plan Restudy (LRDP). (See newsbriefs for details). Toland Hall. Noon and 7 p.m.

NEURO-ONCOLOGY CONFERENCE. L 34. 12:30-2 p.m.

COMBINED HEMATOLOGY-ONCOLOGY ROUNDS. Carr Aud., SFGH.

ORTHOPAEDIC SURGERY CLINICAL GRAND ROUNDS. A 630. 4 p.m.

NEURORADIOLOGY ROUNDS. HSW 303. 4-5 p.m.

PRIMARY CARE ROUNDS: *Diagnosis & Management of Sarcoidosis.* James Brown, Pulmonary, VAMC. A 455. 4:30 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5:15-6:30 p.m.

18 FRIDAY

PULMONARY PHYSIOLOGY SEMINAR. Presented by Moffitt pulmonary staff. S 758. 8:10-9:30 a.m.

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

CONSULTATIVE TUMOR BOARD. M 372. 10:45 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

UCSF/MOUNT ZION GERIATRIC CLINICAL PHARMACOLOGY SEMINAR: *Antiarrhythmic Medications.* Herman Uhley, Med. & Cardiac Electrophysiol.; Nicholas H. Holford, Med. & Pharm.; Steven R. Kayser, Clin. Pharm. Herbst Hall. Noon-1:30 p.m.

DEVELOPMENT & TRAINING COURSES

Nonprofit Organization

NEWS BRIEFS

(from front page)

becomes available from public and/or private sources,

4) construction of an approximate 400-space parking structure on the west side, within the inner campus, in place of the existing parking lots, which would replace the surface parking spaces lost due to these proposed projects,

5) demolition of UC Hospital — no current plans or funds to develop this site; project to wait until use of this building for swing space is completed,

6) the campus proposal to develop student/faculty residential housing on the Polytechnic High School site would be contingent on the ability to acquire and fund the demolition and new construction required.

Copies of the proposed LRDP Restudy and the Draft Environmental Impact Report (EIR) will be available during the week of June 7 in the Chancellor's Office, 145 Irving Street and at the June 17 public meetings.

UCSF also will hold a public hearing on Tuesday, June 29 to receive comments and testimony on the material contained in the Draft EIR. For further information contact Tom Gwyn or Tom Rolinson at x2911.

Applications are now being accepted from children ages 6 to 18 who have hemophilia and other bleeding disorders for a special summer camp which will run June 19 to 25 at Camp Cazadero, near the Russian River.

The goal of the camp is to provide a vacation for youngsters who, because of medical needs, often are refused admission to regular camping programs. Activities range from baseball to basketball, swimming to hiking. The camp helps develop within the children a sense of independence and encourages responsibility for handling their own bleeding episodes.

The camp is sponsored by the hemophilia programs at UCSF, Children's Hospital in Oakland and the Northern California Chapter of the National Hemophilia Foundation. Cutter Laboratories is donating blood factor concentrate used in treating hemophilia.

Susan Karp, RN, is organizer of the program. Other camp staff include Marion Koerper, MD, director, UCSF Hemophilia Program, and physical therapist Nancy Horowitz; and a three member team from Children's.

For further information contact Ms. Karp at M 650, x1280; or Jackie Gianinno, Hemophilia Foundation, 1815 Telegraph Ave., Rm. 215, Oakland, CA 94612, 444-4855.

The Kaiser Awards for Excellence in Teaching, established by the Henry J. Kaiser Family Foundation, were awarded to four faculty members in recognition of outstanding teaching ability.

The awards were presented during the School of Medicine Commencement on May 29 to Diane S. Colby, PhD, Alan B. Newman, MD, Dianne L. Silvestri, MD, and Robert L. Willenkin, MD.

Colby is an adjunct lecturer in Biochemistry and Biophysics and has been a member of the UCSF faculty since 1979. Her research specialty is RNA processing (the transcription and editing processes in gene expression). She received the award in the basic science category.

Newman (volunteer clinical category) has been assistant clinical professor of Medicine since 1977 and is a participant in clinical research in cancer and active in the Northern California Oncology Group.

An assistant clinical professor of Dermatology since 1979, Silvestri is the second faculty member from Fresno to receive the Kaiser Award. She is the director of the Dermatology Teaching Program at the UCSF Fresno-Central San Joaquin Valley Medical Education Program and assistant chief of Medicine in Dermatology at the Valley Medical Center.

Willenkin (full-time clinical category) has been a clinical professor of Anesthesia since 1973. In 1974, he was awarded the Anesthesia Residents' Award for Teaching Excellence.

In a Sunday, June 13 ceremony at the new Moscone Center, the School of Dentistry will graduate 109 dental students and 23 dental hygienists. Ceremonies will begin at 11 a.m. Keynote speaker will be Harold Löe, dean of the School of Dental Medicine at the University of Connecticut in Farmington. Other speakers include Ronald Nicholson, associate professor in Restorative Dentistry and Margaret Walsh, assistant professor in Periodontology.

The program will include the traditional pinning ceremony of the dental hygienists.

A pre-commencement awards ceremony will be held Wednesday, June 9, in Cole Hall from 4 to 5 p.m., where some 50 outstanding students will receive awards and each class will honor a faculty member for excellence in teaching. A reception will immediately follow in the combined lounges of Millberry Union.

Susan D. Ehrlich, M.D. received the prestigious Gold-Headed Cane Award at the School of Medicine Commencement on May 29.

The highest honor a graduating medical student can receive, the cane is presented to the UCSF senior judged by classmates and faculty as best exemplifying the qualities of the ideal physician.

The original gold-headed cane, after which the award is patterned, has been a symbol in English medicine since 1689. UCSF initiated the honor in 1939.

The three other nominees were also inducted into the distinguished Gold-Headed Cane Society: James O. Kahn, MD, who will take his residency at Johns Hopkins in Baltimore; Douglas K. Owens, MD, who will begin his residency in internal medicine at the University of Pennsylvania; and Denise A. Flaherty, MD, who will take her residency in primary care internal medicine at SFGH. Ehrlich will begin her residency training in pediatrics at Children's Hospital Medical Center in Oakland.

In addition, in recognition of their outstanding contributions to patient care and teaching, two faculty members were made honorary members of the Gold-Headed Cane Society. They are Mervin J. Goldman at the VAMC, and Morton A. Meyer, both clinical professors of Medicine.

Ninety-four PharmD and nineteen PhD degrees will be awarded at the School of Pharmacy Commencement Exercises on Saturday, June 19 at the Palace of Fine Arts at 1 p.m.

Joe Graedon, author of *The People's Pharmacy*, and Kevin Brown, senior class member, will deliver commencement addresses. Dean Jere E. Goyan will present the students and Chancellor Sooy will confer degrees.

The Long Awards for Excellence in Teaching will be awarded to several outstanding faculty members during another ceremony on June 15. The Bowl of Hygeia award given to an outstanding Pharmacy student will not be awarded this year.

The Department of Psychiatry will hold its graduation exercises on Friday, June 11 in Cole Hall at 3:30 p.m.

Degrees will be conferred on nineteen residents, five fellows in child psychiatry, six mental health doctoral candidates, seven fellows in clinical psychology, five fellows in clinical/community psychology, three postgraduate research fellows, and seven candidates for doctorates in philosophy.

Three residents, two DMH candidates, one clinical psychologist and one doctoral candidate in psychology will receive awards for outstanding achievement.

In addition, the Residents Association will award two faculty members with excellence in teaching awards.

A reception will immediately follow in the combined lounges of Millberry Union, hosted by the Friends of LPPI.

The Third Annual Leslie L. Bennett Lecture will be held Thursday, June 10 in Cole Hall at 4 p.m. Edward Herbert, professor of Chemistry in the Molecular Biology Institute of the University of Oregon, will present "Regulation of Expression of Opioid Peptide Genes in Mice, Rats and Humans."

Herbert is best known for his work on secretion of peptides by cells in culture. Using a mouse pituitary cell Herbert's laboratory has demonstrated a common precursor for ACTH, beta-endorphin and other biologically active peptides. Most recently he has shown that more than one hormone can be coded by a single gene with subsequent regulation of protein cleavage determining which peptide is secreted.

The Bennett Lecture honors the former academic vice-chancellor and professor emeritus of Physiology, who has taught countless scientists and physicians for more than 40 years. He was named the Morris Hertzstein Professor of Biology and professor of Physiology in 1955, and served as chair of the Department of Physiology from 1953 to 1966. Bennett was awarded the UCSF Medal in 1978.

The lecture is supported by the Bennett Lectureship Fund and is organized by colleagues and students in the Department of Physiology. Tax deductible contributions may be sent to the Department of Physiology, S 762.

A new training program in clinical epidemiology has been established at UCSF through a $650,000 grant from The Andrew W. Mellon Foundation. The program will be conducted jointly by the Institute for Health Policy Studies and the Department of Epidemiology and International Health at UCSF, and by the School of Public Health at UC-Berkeley.

Program director is Stephen B. Hulley, MD, MPH, adjunct associate professor of Epidemiology at UCSF. Other UCSF investigators include: Julius R. Krevans, dean of the School of Medicine and Chancellor-designate; Philip R. Lee, MD, professor and director of the Institute for Health Policy Studies; Nicholas L. Petrakis, MD, professor and chair of the Department of Epidemiology and International Health. The UC-Berkeley investigator is Warren Winkelstein, Jr., MD, MPH, professor of Epidemiology.

Two fellows will be selected each year for the next three years from a field of candidates who have completed their clinical training and demonstrated their intention to pursue an academic career. The program will provide seminars and courses for training and advising the residents and faculty at UCSF, develop teaching materials for use in other schools of medicine, and provide a series of summer scholarships for medical student research projects.

Those interested in the program should contact Susan Benner at x5251 or write to the Department of Epidemiology and International Health, HSW 1699.

HONORS & AWARDS

Sol Silverman, Jr., chair, Oral Medicine & Hospital Dentistry, School of Dentistry: Samuel Charles Miller Award for outstanding contributions to the field of Oral Medicine, at annual meeting of American Academy of Oral Medicine.

Thomas Shipp, research career specialist; chief, Speech Research Laboratory, VAMC: International Gould Award for excellence in laryngeal research.

Robert C. Lim, professor, Surgery, SFGH: President, S.F. Surgical Society.

George F. Sheldon, professor, Surgery, SFGH: Editorial board, *Annals of Surgery*.

Rudi Schmid, professor, medicine; chief, Gastroenterology: American Academy of Arts & Sciences Fellow.

APPOINTMENTS

Nechama Haran-Ghera, professor, Immunology, Weizmann Institute, Rehovot, Israel: Appointed visiting professor for three months beginning June 1, in the laboratory of Jay A. Levy, Cancer Research Institute. She is well known for her pioneering experimental work in the field of leukemia and was the first to distinguish biological differences in viruses associated with radiation-induced leukemias in mice. She will be working with Levy on the role of retroviruses in the emergence of leukemia in animals.

PUBLICATIONS

Milton Silverman, research pharmacologist; **Philip R. Lee**, director and **Mia Lydecker**, principal editor and research associate, both Institute of Health Policy Studies: *Prescriptions for Death: The Drugging of the Third World.* (UC Press, July, 1982.) An in-depth investigation into the promotion practices of drug companies and the methods they use to "dump" worthless or dangerous drugs in Third World nations.

IN MEMORIAM

Joseph W. Crawford, clinical professor emeritus, Ophthalmology. A graduate of Jefferson Medical College in Philadelphia, he became an instructor on the UCSF faculty in 1927. He became emeritus in 1960.

The Chancellor's Summer Youth Program will begin its 14th year starting June 28.

This eight-week summer job experience for youth is part of the cityside youth employment program and will involve some 85 San Francisco high school students. They will work 20 hours per week at UCSF and will be paid minimum wage from city and county funds as well as an additional $1.42 an hour by participating UCSF departments.

According to Affirmative Action coordinator David Johnson,director of the program, this year's outreach program is particularly significant because of large budget cuts and accompanying high unemployment among young people.

In the 14 years that UCSF has conducted the Summer Youth Program, approximately 1,000 students have been employed, 25 to 30 of whom have become career employees at UCSF, several in positions of high-level responsibility.

The San Francisco Medical Society has presented the School of Medicine with a check for $7,580 as part of more than $62,000 given to eight medical schools in California by the AMA Education and Research Foundation.

A total of more than $1.4 million is being distributed this year by the Foundation to the nation's medical schools. The money was contributed by physicians and their spouses, raised in large part by members of the AMA Auxiliary.

Four UCSF faculty members have been elected to the prestigious Association of American Physicians. They are: Robert A. Fishman, MD, chair, Neurology; Robert B. Jaffe, MD, chair, Obstetrics/Gynecology; Merle A. Sande, MD, chief, SFGH Medical Services; and David W. Martin, Jr., MD, Medical Genetics.

In addition, six faculty members were elected to membership in the American Society for Clinical Investigation: Peter M. Elias, MD, at the VAMC, and Ervin H. Epstein, Jr., MD, both Dermatology; Howard L. Fields, MD, Neurology and Physiology; Morris Schambelan, MD, Medicine; Bruce F. Scharschmidt, MD, Gastroenterology; and Lewis B. Sheiner, MD, Laboratory Medicine.

Some 75 high school and college students who are considering a career in the health sciences are donating their time at UCSF in a unique, nine-week program.

From June 28 to August 29, students 16 years of age or older will be working 9 regularly scheduled hours per week in a wide variety of practical work experiences, ranging from patient care to health care administration.

Students will work closely with hospitals and clinics staffs in various departments including X-ray, Pediatrics, operating, recovery and emergency rooms, Admissions, nursing units, as well as the Moffitt Information Desk and Gift Shop. The UCSF Summer Volunteer Program is sponsored by Volunteer Services.
